

## Privacy Policy for ppx-TEC mobile apps

*Updated September 3, 2019*

Patient Provider Exchange, LLC, dba ppx-TEC app, does not collect, possess, have access to, nor share or disseminate users' personal health information.

Users of the ppx-TEC app possess and have sole discretion over health data placed on their device running the ppx-TEC app. Data is stored in a private database on the device and is not accessible by Patient Provider Exchange, LLC.

The ppx-TEC app complies with all federal and state laws, as well as HIPAA compliance regarding users' right to privacy.

A security PIN can be specified within the app and required to open and access the mobile application. This PIN is additional to the PIN used to gain access to the device.

PPX-TEC Bluetooth transfers have 3 layers of security: (Single use 8 digit token, Bluetooth encryption, and point-to-point connections which are privately made and not broadcast).
